Retail

Biscuit International provides a full range of sweet and salted biscuits to most retailers in Europe. Historically this is the group's main activity. We have become a leading supplier thanks to our enthusiasm for our customer's brands and to our broad product range, our flexibility, our competitiveness and the excellent service we provide.

We look at business from our customer's point of view, creating added value in everything we do.

Food Service

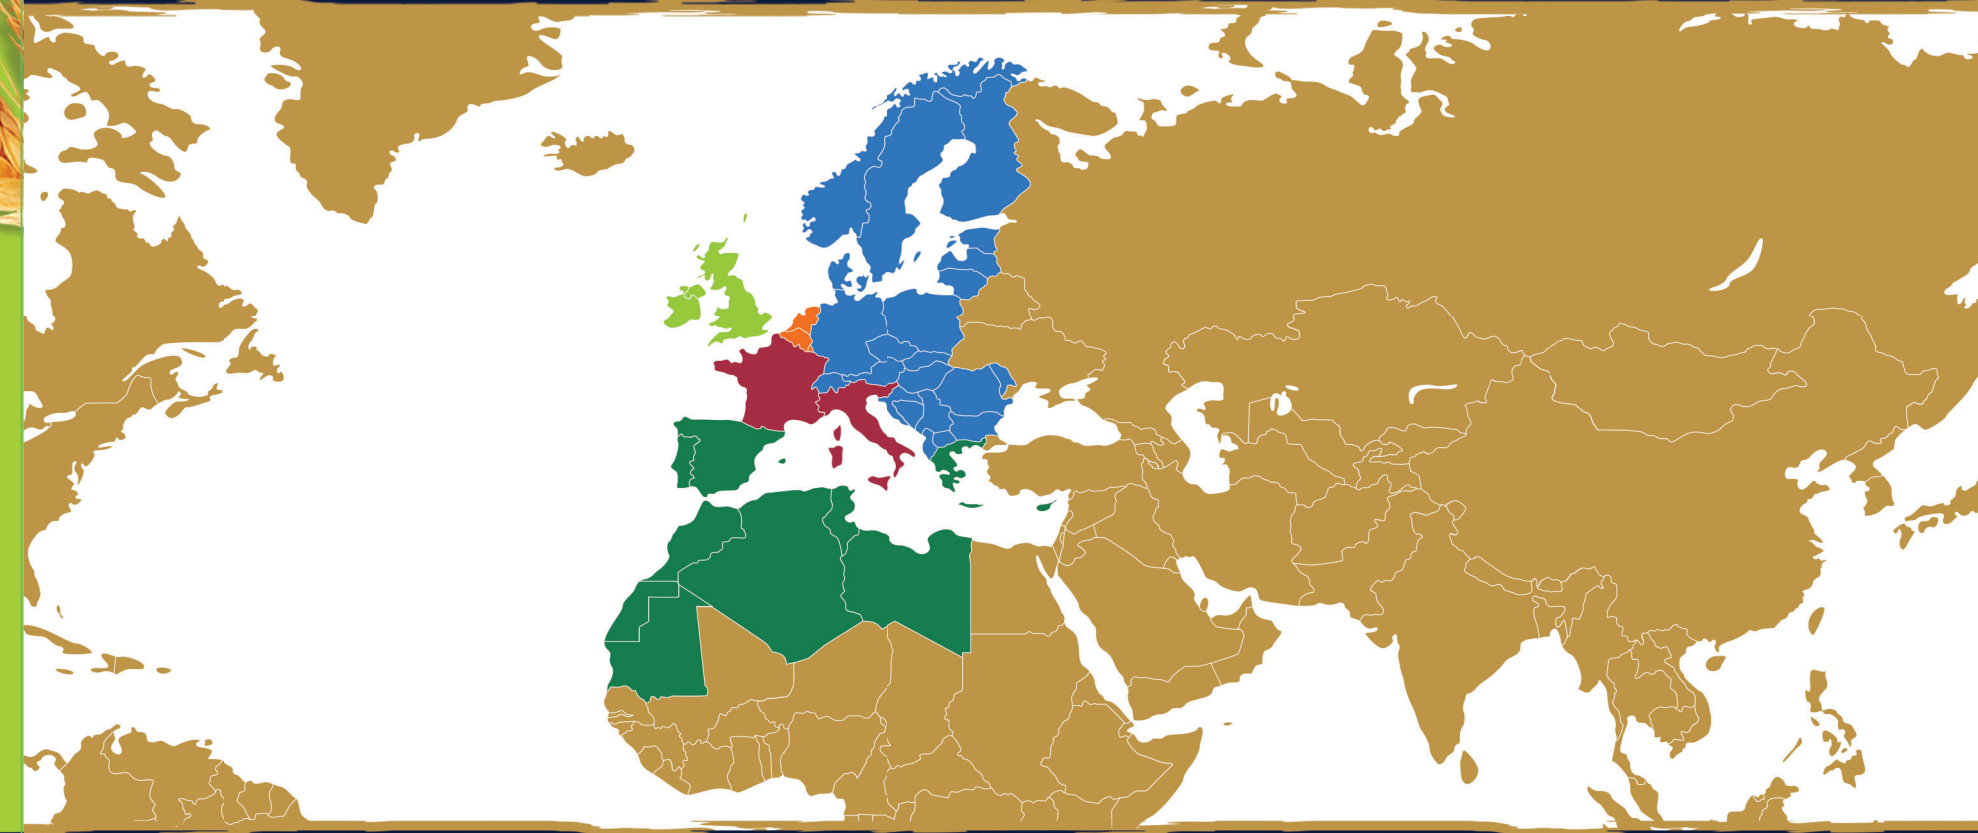

Petrol stations, caterers, vending-machine operators, airlines and railway stations are all highly impressed by our comprehensive food service package. As a food service account, you will find us the ideal partner for your entire range. We are a reliable supplier with an innovative spirit.

Together we will achieve growth and improve your profitability.

Co-Manufacturing

We strive to expand our contract manufacturing business by developing and manufacturing new, high-quality products for our A-brand customers. With our R&D capabilities and 14 flexible production facilities in Europe we offer a wide range of delicious products and are your dedicated partner in co-designing products for your A-brand. When (co-)designing new products, we will share with you our extensive knowledge of market trends, product formulas, raw materials and production technology.

ORGANIC

As a key player in the European private label sweet biscuit market, Biscuit International is also your partner for an organic assortment. We believe in this growing segment, we combine the (conventional) biscuit category with our innovative strength and experience in working with organic raw materials and production processes.

We developed a full range of organic versions of our most successful products. Our industrial bakeries are specifically equipped for the production of our organic range and we have the capacity to manage and control high quality standards.

GLUTEN FREE

FOR EVERY OCCASION OF THE DAY

Try our great range of gluten free biscuits. For consumers with a food allergy or with a healthy lifestyle choice.

We have been making gluten free biscuits and other free from biscuits since the 1980s. Part of this journey has been learning the science behind gluten free. We partnered with Brunel University to explore gluten free testing and measurements. We are also pioneering the use of gluten free oats, part of the secret that makes our gluten range so tasty.

And on top of that, we reckon that our gluten free biscuits are even better tasting than traditional gluten containing alternatives.
