WATER METER PIT

TOGETHER WITH A DUTCH WATER COMPANY WE HAVE DESIGNED A INTEGRATED WATER METER PIT. THIS PIT ENABLES THE INSTALLATION COMPANY TO ONLY MAKE ONE HOLE IN WHICH THE WHOLE SYSTEM CAN BE PLACED. IN THIS CASE NO SEPARATE PIT IS NEEDED.

THE WATER METER IS PLACED BELOW THE GROUND FROST LEVEL. THE HOLDER CAN FIT ANY TYPE OF WATER METER. THE METER CAN BE READ BY OPENING THE HATCH AND PULL THE WATERMETERPIT SYSTEM OUT OF THE PIT, WHICH IS MADE POSSIBLE BY THE FLEXIBLE HOSE. THIS IS ALSO THE PLACE WHERE THE TAP CAN BE CLOSED FOR MAINTENANCE PURPOSES. ADJUSTMENTS CAN BE DONE TO THE PIT TO FIT IN OTHER ELEMENTS.
